Review Report Form for IFAC 2020 Submission

WARNING: Session time out

If the browser does not communicate with the server for 60 minutes the session is terminated for reasons of security and you will need to log in again. Watch the countdown timer to see when the session will expire

Five minutes before time out your work will be automatically saved. Any work done on the page after the autosave will be lost unless you prevent the session from expiring

PLEASE NOTE: To prevent the session from timing out [click here](#). This resets the timer to 60 minutes

You may submit the review immediately or save it to finish it later. After having submitted the review you will receive a copy of the review report by e-mail

Scroll down to complete all fields and use the Submit or Save button at the bottom of the page

Comments to authors*

Very important! Please provide written comments to the authors to help them improve their work, or to explain your recommendation for rejection. Unlike many other conferences, we do forward your comments to the authors. The authors, like you, do appreciate such constructive comments. Your comments will also help to improve the technical quality and to promote the prestige of the conference. Your effort will be greatly appreciated by everyone.

Type or paste your comments into the box to the right in plain text format. Do not use TeX-style formatting commands except perhaps for a few unavoidable mathematical expressions

Attachment

You may optionally upload an attachment to your comments to the authors in the form of a file. Be sure to summarize your review in the textbox above because the Program Committee may not always have access to the attachment.

No file chosen
Single file with the extension pdf
The maximum file size is 2 MB

All pdf annotations, comments and markup included in your pdf file are retained.
Warning: Annotations that you make to a pdf file carry your identification. To make the review anonymous, you must ensure that any identifying information is removed. [Click here](#) for help

Important: Please make sure that the name of any file that you try to upload, as well as the names of all directories in the file path, only contain standard ASCII characters. Otherwise you run the risk of receiving a security violation error message

Save

You may optionally save your incomplete review to submit it later. Any attachment is saved along with the review. If you save the review report then do not forget to return to finish and submit it

Save the report to finish and submit it later

This may take a moment if you are uploading an attachment

Submit

After submitting the review you will receive an acknowledgment by e-mail but you cannot revise the review.

If after submitting the review you find a serious omission or mistake then please contact the Associate Editor who invited the review to send you a request to submit a revised review

Submit the referee report

This may take a moment if you are uploading an attachment
