15th IFAC World Congress
Barcelona, Spain
21 – 26 July, 2002

The XV IFAC World Congress to be held in Barcelona, the b’02, will be the first to take place in the XXI Century and therefore, in the Third Millennium. As such, it will be highlighting the new directions of Automatic Control science and technology in the new century. The Congress will follow three main lines:

- Emergent Automatic Control Applications. New applications in industry and services, and their technological implications

- The Social Challenge of Automation and Control Theory. Analysis of the social impact of control and automation at the turn of the century.

- Use of Advanced Information Technologies at the Congress. The Congress itself should be an example of how advanced information technologies can promote scientific and technical exchange between world wide specialists. For example, the use of the Internet as the main way of receiving the author’s contributions, and as the preferred way for communications between program and technical committee members, on-line information as a congress facility, and presentations using direct on-line experiments.

In addition, Barcelona is traditionally a city friendly to all cultures. Barcelona has a rich past, a dynamic present, and an exciting future. Situated on the coast, its climate is Mediterranean and mild. In July, its coasts and beaches invite you to spend a pleasant holiday here. All those attending the b’02 IFAC World Congress, will have the opportunity to participate in a very interesting congress and understand why Barcelona is one of the most visited cities of the world.

You are kindly invited to come to Barcelona, to the XV IFAC World Congress.

Gabriel Ferraté (NOC Chair)
Luis Basanez/ Juan Antonio de la Puente (IPC Chairs)
Pedro Albertos (IFAC President)

Congress Dates
Monday – Friday, July 21 – 26, 2002

Pre-Congress Tutorials Dates
Saturday – Sunday, July 19 – 20, 2002

Open Forums Period
April 1 – June 15, 2002

Paper Pre-discussion Period
April 1 – June 15, 2002

Congress Venue
Universitat Politècnica de Catalunya – Campus Nord, Barcelona, Spain.
