(2) International Committees

The Stock Exchange's strategy to promote the growth of international markets involves the establishment of international committees. These committees are formed to facilitate cooperation among exchanges worldwide and to address issues of mutual interest. The International Committee of the Exchange is responsible for the coordination of these efforts.

(3) Technical Committees

The technical committees are responsible for the development and maintenance of the Exchange's trading systems and rules. They are composed of experts from various financial institutions and are tasked with ensuring the smooth operation of the Exchange.

(4) Educational Committee

The Educational Committee is responsible for the provision of educational programs and resources to members of the Exchange. They conduct seminars, workshops, and other training sessions to help members stay up-to-date with the latest trends in the financial sector.

(5) Regulatory Policy Committee

The Regulatory Policy Committee is tasked with the development of regulatory policies that ensure the fair and efficient operation of the Exchange. They monitor market trends and make recommendations to the Board of Directors on changes to the Exchange's rules.

(6) Audit Committee

The Audit Committee is responsible for the oversight of the Exchange's financial and accounting practices. They review financial statements and ensure compliance with accounting standards and regulations.

(7) Technology Committee

The Technology Committee focuses on the development and implementation of new technologies to enhance the efficiency and functionality of the Exchange's systems. They stay abreast of technological advancements and recommend new systems or updates as necessary.
